22 Courses

- Gen AI Dev- Analyze Requirements & Design GenAI Solutions
- Gen AI Dev- Select and Configure Foundation Models
- Gen AI Dev- Implement data validation & processing pipelines
- Gen AI Dev- Design and Implement Vector Store Solutions
- Gen AI Dev - Design Retrieval Mechanisms for FM Augmentation
- Gen AI Dev- Implement Prompt Eng. Strategies & Governance
- Lab - Develop RAG Apps with Amazon Bedrock Knowledge Bases
- Gen AI Dev- Agentic AI Solutions and Tool Integrations
- Gen AI Dev- Model Deployment Strategies
- Gen AI Dev- Enterprise Integration Architectures
- Gen AI Dev- Foundation Model API Integrations
- Gen AI Dev- Implement App Integration Patterns & Dev Tools
- Lab - Develop Conversation Pattern with Amazon Bedrock APIs
- Gen AI Dev- Safe User Interactions with Gen AI Applications
- Gen AI Dev- Implement Data Security and Privacy Controls
- Gen AI Dev- Implement AI Gov, Compliance, & Transparency

Amazon Web Services (AWS)

## Rajendra Shivanna

AWS Instructor

has successfully completed the online Professional Certificate

# AWS Generative AI Developer Advanced

This course is designed as preparation for the AWS Certified Generative AI Developer - Professional exam. This certificate recognizes the successful completion of a five-part generative AI learning plan. The recipient demonstrated skills in integrating foundation models with Amazon Bedrock, architecting solutions with AWS Lambda and Step Functions, prompt engineering, agentic AI, and model deployment. They applied responsible AI practices using Bedrock Guardrails and AWS security frameworks, implemented cost optimization and performance monitoring strategies, and validated AI outputs through evaluation frameworks, A/B testing, and hallucination detection to deliver secure, efficient, and reliable enterprise AI solutions on AWS.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
